

Comfort Spaces

Fusion
S P A C E S

With the integration of cutting edge technology and wellbeing adaptations, Fusion Spaces helps you to create Comfort Spaces to support human wellbeing at work. People are at the heart of every business and every human seeks comfort and safety to thrive.

FLEXIBLE

A meeting room or private pod is enriched to become a bookable single occupancy wellbeing space.

INCLUDE

Retain and attract talented neurodiverse employees and those living with stress and anxiety with a sensory space.

COLLABORATE

Our collaborative video conferencing solutions include a simple and confidential wellbeing platform to support personal online therapy, coaching or online medical appointments.

RELAX

Meditate, rest and restore, a place to pause on a busy or stressful day.

WORK

A space for one to work with privacy.

FOCUS

Acoustic comfort to minimise distraction and support wellbeing, focus and concentration.

BREATHE

Purified air.

CLEAN

We can integrate easy clean, antimicrobial, voice controlled, none touch or safe touch solutions.

FEEL GOOD

Circadian and colour tuned lighting to support the human body clock and mood.

CREATE

Increase creativity and productivity in a more personal work space.
